Slide 3 of 9

Introduction

Mission

Explore and evaluate avenues in which state agencies, educational institutions, and local governments can strengthen current relationships and create new partnerships to increase collective productivity and realize greater effectiveness and efficiency.

Slide 4 of 9

Introduction

Objectives

- ♦ To develop a mechanism to identify and disseminate “best practices” to state agencies, higher education, and local governments.
- ♦ To improve coordination and communication among state agencies, higher education, and local governments.
- ♦ To leverage the resources of state agencies, higher education, and local governments to provide support and assistance to others.
